# Know Me More

## Hi, I'm Kaku Amsalu

I am a 3rd-year Software Engineering student at Addis Ababa University with a strong passion for web development and artificial intelligence. I thrive on designing intuitive and efficient web applications while exploring the limitless possibilities of AI to solve complex, real-world problems. Over the years, I have gained experience in various programming languages and tools, allowing me to build projects that emphasize both functionality and user experience. My curiosity drives me to continuously learn and stay updated on the latest technologies, ensuring I can adapt to the ever-evolving tech landscape. I am committed to creating innovative solutions that blend creativity, practicality, and cutting-edge technology to make a meaningful impact.

Name:  
**Kaku Amsalu**

Email:  
**amsalukaku122@gmail.com**

# How I can help your next project

## UI/UX design

I design clean and user-friendly interfaces with a focus on delivering an engaging user experience. Using tools like Figma or Adobe XD, I create wireframes and prototypes tailored to client needs.

## Frontend Development

I create visually appealing, responsive, and user-friendly interfaces using modern web technologies like HTML, CSS, and JavaScript. My focus is on delivering intuitive designs that enhance user experiences across devices.

## Backend Development

I build robust and scalable server-side solutions using frameworks and technologies like Django or Node.js. I ensure seamless integration, secure data handling, and optimized performance for your applications.

# A summary of my resume

## My Education

### BSc in Software Engineering

AAU | 2022 - 2027

Pursuing a Bachelor of Science in Software Engineering at Addis Ababa University with a focus on software development and problem-solving.

### Backend Development

ALX Ethiopia | 2024 - 2025

Currently learning backend development, gaining skills in server-side programming, database management, and API design.

## My Experience

### Jr. Front End Developer

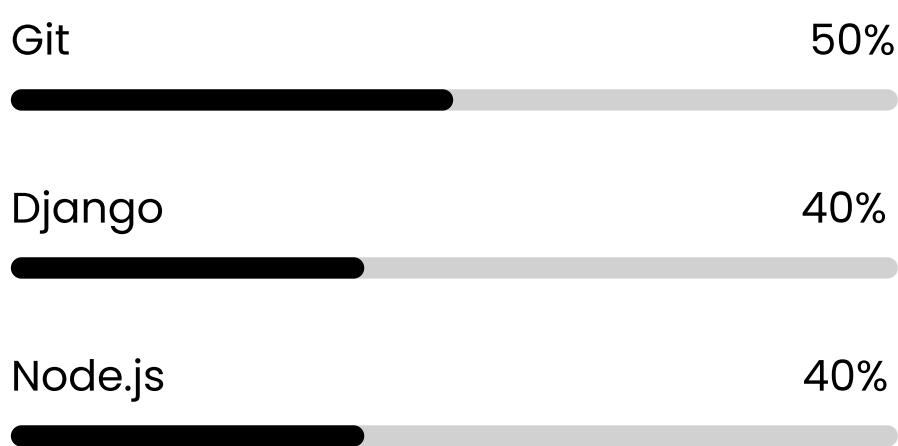

Learning to create responsive and interactive web interfaces using HTML, CSS, and JavaScript.

### Jr. Back End Developer

Gaining knowledge in building server-side applications, focusing on database management and API development.

### Jr. UI/UX Designer

Gaining knowledge in building server-side applications, focusing on database management and API development.
